NOTICE
POOL RE-PLASTER SCHEDULED
POOL CLOSURE DURING CONSTRUCTION

The Small Pool is scheduled for re-plaster work to begin on Wednesday, February 16, 2022. The pool will be drained on this date followed by the hydro blast of the plaster on February 18.

During the reconstruction work to re-plaster the pool, it will be padlocked and will be inaccessible for use until work has been completed, approximately six weeks.

We apologize for the inconvenience, but believe this improvement will benefit all and keeps to the high standards set for maintenance by the Association.

Your cooperation and understanding during this time is appreciated. If you have any questions, please contact The Management Trust at the number below.
